

Electric motors for sailboats

E'DYN

## Heavy duty

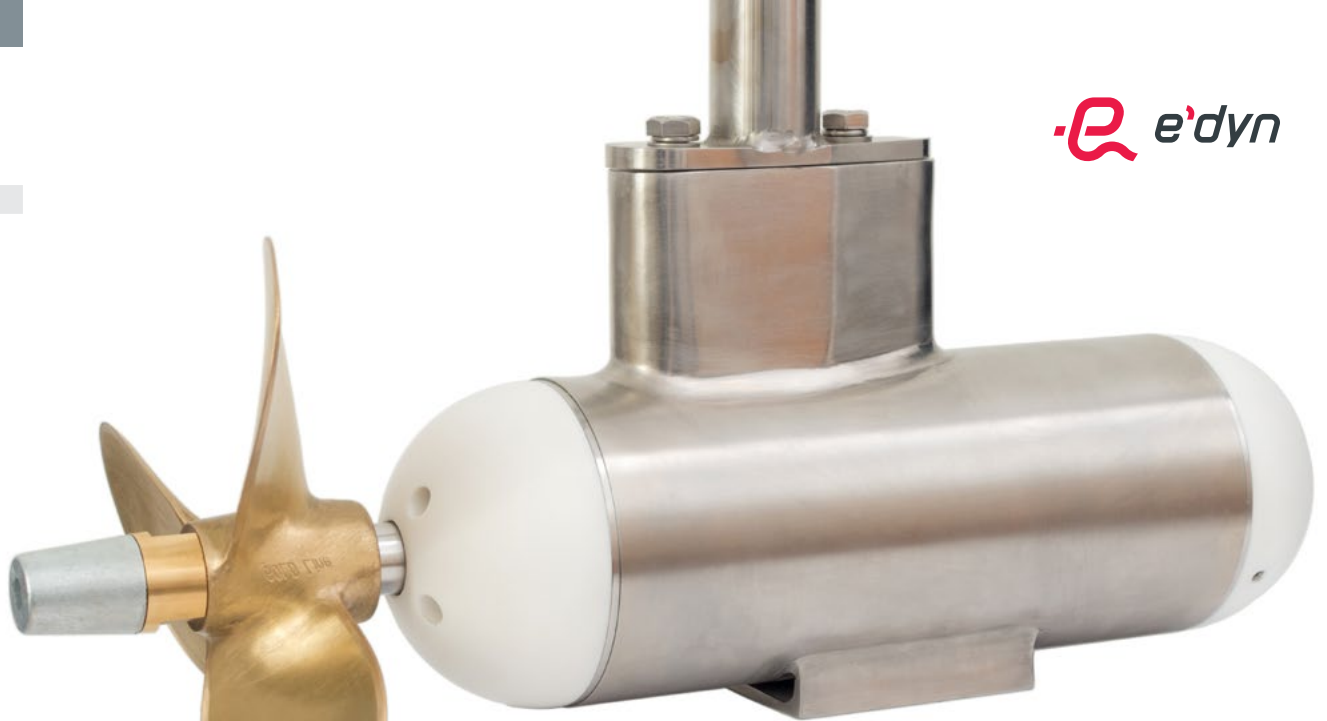

COMPLETELY  
**GREEN AND ECO**

Simple. Powerful. Easy.

**E'DYN WAS CREATED WITH  
ONE THING IN MIND  
- THE CUSTOMER.**

The Sail series engines are designed for sailors who enjoy the silence and fluttering of the flag in the wind. Their movement is ecological and inaudible, as if driven solely by the wind. The Sail series is available from 1.6 kW to 10 kW in the Submersible version.

FEEL  
THE WIND

We adapted the batteries to the Sail series. They provide long operating autonomy with their minimal weight and high power.
